Best Thing for a Bilious Attack.

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets and the next day I felt like a new man," writes H. C. Bailey, editor Carolina News, Chapin, S. C. CONDENSED REPORT SCHOOL ATTENDANCE

FAVORABLE INCREASE OVER SCHOLASTIC YEAR OF 1913-14.

TOTAL OF 3,579

Shows 2,556 White Children Enrolled and 1,023 Colored School Children.

The following is a condensed report which will be made by Supt. E. C. McCants at the meeting of the Anderson school board of trustees. Many interesting things are shown in the report and all people interested in the schools of Anderson should read it closely.

The report follows:

White Children.		
	Boys	Girls
High school	83	134
Market St. school	147	156
East St. school	176	222
Kennedy St. school	185	177
Glenn St. school	312	336
South Side school	150	133
Whitner St. school	55	65
Night school	131	73
Total	1,240	1,316
Grand total		2,556

Colored Children.		
	Boys	Girls
School A	219	574
School B	209	263
School C	21	23
Totals	449	574
Grand total		1,023

This makes a total of 3,579 pupils, both white and colored, enrolled during the school year 1914-15 as compared with 3,588 last year. Last year there were 2,242 white pupils enrolled, showing a gain the past year of 341. Last year there were 1,026 colored pupils enrolled as compared with 1,346 this year or a gain of 323. As compared with the totals of both white and colored pupils for the year 1913-14, the increase in colored schools is much more in proportion as compared with that of the whites.

Operating Expenses.
The operating expenses of the schools this year amounted to \$34,595.00, or an average of \$9.66 per pupil. Last year the average per pupil was \$9.00, showing a slight increase this year. However the average is far below that of the state at large which shows approximately \$13.00 per pupil, including the rural schools.

These figures include the hire of teachers, janitors and repairs but do not include interest on bonds, new schools or additions.

WILL SPEND MONTH IN PHILADELPHIA, PA.

Dr. White to Preach There During The Month of August.

The Rev. John E. White, D. D., who will come to the pulpit of the First Baptist church on September 1, according to the Atlanta Constitution, will spend the month of August in Philadelphia, Penn., where he will be a guest of a deacon of the Second Baptist church of that city and where he will preach every Sunday during his stay.

Dr. White gives as one reason for his accepting the call to Anderson the fact that he will have more time to attend to his studies and also to write two books which he is contemplating. One of these will deal with the part the South has played in the building up of the nation and the nation's opportunity as a world power. The other book which he is to publish will be a book of sermons on "The Religion of Jesus."

Dr. White also gives as a reason for his accepting the call to Anderson the fact that he will have more time to attend board meetings, to take part in movements of a public and a semi-public character, etc., all of which is natural and right that a minister should do.
